EDUCATION

B.Tech in Computer Science and Engineering

KL University, Vijayawada (2023 – 2027)

CGPA: 8.0/10

PROFILE SUMMARY

Computer Science undergraduate with strong expertise in Data Structures, Algorithms, Object-Oriented Programming, DBMS, and Operating Systems. Experienced in designing scalable backend systems and full-stack web applications using Node.js, Express.js, and MongoDB. Passionate about building optimized, secure, and production-ready software systems. Seeking opportunities to contribute to innovative and impactful technology projects.

TECHNICAL SKILLS

- Languages: Python, Java, C, JavaScript
- Frontend: HTML, CSS
- Backend: Node.js, Express.js, RESTful APIs
- Database: MongoDB (Schema Design, Query Optimization)
- Core Concepts: Data Structures & Algorithms, OOP, DBMS, Operating Systems, System Design Basics
- Tools & Platforms: Git, GitHub, VS Code, Firebase, Android Studio

EXPERIENCE

Android Developer Intern

AICTE Eduskills Virtual Internship (Apr 2025 – Jun 2025)

- Developed modular Android applications using Java/Kotlin following clean architecture principles.
- Integrated REST APIs and Firebase authentication ensuring secure user data handling.
- Optimized UI workflows and improved application responsiveness.
- Followed structured development lifecycle including requirement analysis, implementation, and testing.

PROJECTS

18 Events Management – Scalable Full Stack Booking Platform

- Designed and developed full-stack booking system using Node.js, Express.js, and MongoDB.
- Built RESTful APIs with secure authentication and authorization mechanisms.

- Integrated online payment gateway (Razorpay/Stripe) for secure transaction processing.
- Implemented efficient CRUD operations and optimized database schema for scalability.
- Applied backend validation, error handling, and structured routing for maintainable architecture.

Smart Glasses for Blind People using IoT

- Engineered embedded obstacle detection system using Arduino and ultrasonic sensors.
- Implemented real-time signal processing for low-latency alert generation.
- Designed reliable hardware-software integration improving navigation assistance.

CERTIFICATIONS

- Oracle Cloud Infrastructure – 2025 AI Foundations Associate
- AICTE Eduskills Android Virtual Internship
- AviatriX – Multicloud Network Associate
- Cambridge Lingua Skill Certification
